

National Boating Safety Programs

NauticEd Sailing Education Company Offers

- (1) The American National Standards Boating Safety Course,
- (2) Free Online ColRegs Navigation Rules Course
- (3) Yacht Chartering Boating Knowledge and Safety Course
- (4) International License Boating Courses

- (1) NauticEd offers the Nationally Recognized On The Water Sailing Endorsement Course which is [verified by NASBLA](#) as meeting the US Coast Guard created American National Standards for boating education – EDU-3.

The American National Standards for boating education was officially launched by the US Coast Guard in 2017.

The American National Standards require theory knowledge of boating safety and a demonstration of practical on-the-water competence to an authorized American National Standards assessor.

[NauticEd International Sailing Education Company](#) was the first sailing education body to be recognized as meeting the American National Standards EDU-3 and to-date remains the only sailing education body to meet the standards.

- (2) NauticEd also offers a [free ColRegs online Navigation Rules course](#). The online course discusses the rules of giveaway for boating. High quality graphics and animations are presented depicting possible collision situations and who should giveaway.
- (3) Large sailboat chartering can be a safety issue for the non-experienced. NauticEd offers the [Bareboat Charter Master](#) series of courses to increase knowledge and safety when chartering (renting) large sailboats. Those wanting to be competent crew members on charter yachts can also do the [Yacht Charter Crew Course](#).
- (4) [International Sailing License and Credentials \(SLC\)](#) and International Certificate of Competence (ICC) are required licenses to charter yachts internationally. NauticEd offers the SLC and the ICC courses which meet international competency standards.

For more information on these courses contact Grant Headifen, Global Director of Education
